

Cheer & Dance Battles

Live Proctoring

What is Live Proctoring?

Live Proctoring allows athletes from around the world in different time zones to compete in a live virtual environment from where they normally practice and it still be judged live as it happens on competition day.

Cheer & Dance Battles has a Live Proctoring Calendar with dates preset before the event that allows teams to have a proctor connect through the arena or through a zoom call to record the 3 routines used for the tournament in a live setting.

The 3 routines are recorded and used for Round 1, Round 2 and Round 3 of Tournament competition during the event.

Please refer to the Cheer & Dance Battles Live Proctoring Link on the Competition page for more information.
